STANDOUT FEATURES INCLUDE

Outdoor viewable display

User-Replaceable Battery
for 4+ hours of runtime

Long Product Life for
Reliable Availability

VESA 75mm
mounting standard

The **m185T AIO PC** is powered by an Intel core processor for enhanced performance, and features an 18.5" **HIGH-BRITE** (700 nit) Full HD LED back-lit display with 10-finger multi-touch for outdoor usability and intuitive input. It features a user-replaceable battery which provides over four hours of battery life for enhanced data integrity and/or enhanced user mobility. It can be mounted on a multi-positional, highly articulate VESA stand that can be adjusted to fit mostly any counter, tabletop or food cart. Plus, with its wide array of standard PC I/O it can easily be paired with industry standard barcode scanners, magnetic stripe readers, PIN pads and cash drawers to make a total POS solution.
